

# DEMOCRACY BETWEEN HASHTAGS, LIKES AND ETHICS

- How do you initiate constructive methods that promote the awareness of digital values and enable young people in the long term to stand up against hatred on the net?
- How do we address the inter-generational question in the field of media education?
- What is virtual space and why does it endanger democracy?
- How can digital civil courage be realised?
- How can peer-based methods be used to support the promotion of media literacy?
- Youtube as an ally for political education?
